Skills

I'm interested/excited/enjoy working with **Python** and its related packages and contributing to /developing the engine of a machine, However, I can work efficiently on the below mentioned technologies.

Programming: Python, Java, C#, C, C++, JavaScript, ColdFusion.

Mark-up: HTML, CFML, XML, TOML, YAML

Markdown: Python

Database: Sql Server, Sqlite

Database Reporting Tools: SQL Server Reporting Service, Tableau

Python Frameworks: Flask

Packages: Numpy, Web Scraping (BeautifulSoup, Scrapy, GoogleScraper, newspaper3k, lxml etc...)

Web UI: CSS, Bootstrap

IDE & Text-Editor: PyCharm, Adobe Dreamweaver, Eclipse, VS Code, Sublime Text, Atom, Brackets, Notepad++

Version Control: GIT & GitHub, Sub Version Networks (SVN)

Experience

Global Data/ Software Engineer

August 2018 - PRESENT, Hyderabad

I'm responsible for completely handling two products (web applications) built on Coldfusion and SQL Server that were recently took over by Global Data Plc. I work on the enhancements, debugging and re-engineering the application.

I also work closely with the Automation/Python team in writing scripts for web scraping or data scraping from the files in the local machine.

I also write python scripts for automating some of my daily tasks.

Invincible Software Solutions India Pvt. Ltd / Software Developer

December 2016 - July 2018, Visakhapatnam

Developed about 12 web applications using Coldfusion and Microsoft's SQL Server with bootstrap 3 for the responsive UI.

Developed SSRS & Tableau reports with descriptive analysis for 3 projects.

Trained the in-house team on Python

Coding Sastra / Python Consultant

January 2017 - Present, Visakhapatnam/Hyderabad

Introduced the Python course at the institute and curated the contents.

Conducted workshops on Python on behalf of the institute.

Pythonworkshops.com / Python Tutor

January 2018 - Present, Visakhapatnam/Hyderabad

Conducted a 2-day workshop in association with **Andhra Pradesh Startup Society** (as part of a Startup Initiative) on 'Introduction to Programming with Python'

Trifoil LLC / Project Engineer

February 2013 - October 2015, Muscat

Engineered System Integration solutions.

Major project and client being the installation of Speed Radar Systems for the Royal Oman Police apart from which 14 other projects of system integration involving IPTV systems and Structured Cabling were handled.

Mott MacDonald / Automation Engineer

September 2009 - April 2012, Abu Dhabi

Consulting engineer for automating the Waste Water Treatment Plant at Yas Island, Vacuum Sewer System at Al Gurm Resort and Pumping Station at Emirati Housing Society - Phase 1.

Education

Andhra University / Bachelor of Technology - Computer Science & Engineering

June 2005 - May 2009, Visakhapatnam, Andhra Pradesh
